

Basic Drawing with a Twist!!

Ages 7 and up

Student will learn the value scale, lighting and perspective. We will be learning Watercolor, colored. We will be able to put together landscape as well as learning how to draw our favorite characters like Super Mario, Marvel Kids heroes (Iron man, Captain America etc.), and Disney Heroes of all shapes and color. Includes supplies (watercolor, brushes, Ink pen, colored pencil and pencil) If you have already taken this class, we will continue to learn great drawings. This time all new one and add on to what we have already learned.

This class is only for 7 weeks. Gives us 5 weeks to make up any classes missed. \$75 includes Materials.

WaterColor: This is watercolor with professional pallet and materials. Learn fun techniques to illustrate what you envision. This class is for 7 weeks. \$75 includes Materials.

If anyone wants additional class after that it \$10 a class

Hi there! My name is Rachel Melendez. I work with Tampa bay heat teach as an art teacher and science teacher for two years. I love teaching and kids. I also teach English to great elementary students. I have work with children from ages 2 to 18. I am currently working on my counseling degree and Home school my two children.

Homeschool Martial Arts & Self Defense at Altitude Trampoline park

4340 W Hillsborough Ave, Ste 350, Tampa, FL at 12:00 am on Monday in the mezzanine

Ages: 9+ (younger children on a case-by-case basis) Class min: 10

\$75.00 for 12 weeks (25% sibling discount)

BE BULLY PROOF! Participants will learn the basics of American Taekwondo and a variety of self defense techniques from all styles of martial arts.

Learn how to recognize and handle threatening situations to avoid being a victim. Improve confidence and self awareness.

Increase balance and flexibility.

Combine fun, focus, and fitness.

Parents are encouraged to participate. Instead of waiting for your child during class, join in and participate!! Your child will feel more confident and learn more if you participate, and you will be able to help them practice at home.

Please wear comfortable attire that allows you/your child to move. There will be a lot of arms and legs in the air, so some people prefer form-fitting legs and shirts for modesty.

Classes taught by Sherill Denison, a mental health professional, who is also a 2nd degree black belt martial arts instructor, and former fitness trainer. Our classes are different because we do not have an emphasis on competition, good grades for belt levels, or any traditional dojo requirements. This is an “unschooling” approach to martial arts.

Teacher contact info: sherilldenison@yahoo.com 727-455-6004

YOGA & MINDFULNESS (TAUGHT BY SHERILL DENISON)

at 10:00 am on Monday in the mezzanine

Ages: all Cost: \$6/ class or \$65.00 for 12 weeks (25% off siblings)

- Improve balance coordination, strength, and flexibility.
- Learn to still the mind for increased attention and focus.
- Integrate yoga and meditation into your life, including the social-emotional and cognitive benefits.
- Learn about gratitude, positive coping skills and other mindfulness techniques.
- Combine fun, focus, and fitness in an inclusive and encouraging learning environment

Parents are encouraged to participate. Instead of waiting for your child during class, join in and participate!! Your child will feel more confident and learn more if you participate, and you will be able to help them practice at home.

Please wear comfortable attire that allows you/your child to move. There will be a lot of arms and legs in the air, so some people prefer form-fitting leggings and shirts for modesty.

Please bring a mat, towel, and other yoga props if you have them.

Classes taught by Sherill Denison, a mental health professional, who is also a 2nd degree black belt martial arts instructor, and former fitness trainer.

Mad Science 12 week program - 11:00 am Monday, Party Room

A minimum of 12, max of 20 ages of 6 to 12 (20% sibling discount), 12 weeks discounted price to home schools is \$120 + a \$25 non-refundable materials fee. = \$145 total .

We are on a mission: By making science fun we aim to inspire an interest in science and a love of learning in children that will last a lifetime. Children participate in hands-on experiments in small groups, individually and as assistants to the instructor in dynamic interactive demonstrations, and always make something they will get to take home. Each session is focused on a different topic guaranteed to entertain, amuse and educate. Take-home cards with each session also indicate to parents “what we learned” and introduce “Lets try this at home” activities to reinforce what was presented.

You will build upon our understanding of chemistry to develop forensic and crime solving skills. You use new. Our STEM curriculum correlates with both National and Florida Sunshine State Standards for science. Through our fun, interactive and inquiry-based approach to science our mission is to instill a love of learning in children that will last a lifetime. Our website www.GreaterTampabay.madscience.org also has more details about all our programs and includes some videos that demonstrate what a Mad Science experience is like.

One week drop period at no charge and/or be fully refunded. After 2nd week full payment due for program.

Option 1: Can mail directly to Mad Science of Greater Tampa Bay - 204 37th Ave N #123 Saint Petersburg Florida. 33704

Option 2 – call our office and can by Credit card

Option 3 (least preferred) – hand a check to our instructor there.

Mad Science Headquarters: madsciencetb@earthlink.net and the office phone number is 727-895-5595.

Hogwarts School of Witchcraft and Wizardry 7+ \$50

max- 10 min-4

If you are a Harry Potter fan like me, this is the perfect class for you. Students will experience their first year of Hogwarts School of Witchcraft and Wizardry. We will be making wands, quills, books, potions, our very own Puffskins , plus other Harry Potter themed crafts. So come learn about Charms, Magical Creatures, the Dark arts, Herbology, and more!

This class will be taught by one of the students in our co-op and her mother, Audrey Schwandt

Build It, Move It, LEGO , taught by Elizabeth Priest, ages 5-12 \$108.00, 20 % sibling discount,

10 am Monday

We will be exploring the ins and outs of science, technology, engineering, the arts, and math through LEGO® bricks and brand new LEGO® models we have designed for this semester based on popular themes such as Roblox, Star Wars, Pokémon, and much more! Through the use of our LEGO® robotics, LEGO® 3D Art, and LEGO® mosaics, we will teach our students a whole new way to learn and play with LEGO® bricks! Anything is. ... DON'T MISS THE FUN!

Elizabeth Priest is a long time homeschooling mom of a 9 year old. She has over ten years of teaching experience.

Clay with Kelley Pitcher ph #813850297. Email: suzyq_k@yahoo.com

Max number for students is 10. Ages 5 and up.

*If your child is 5-6 yrs I do ask that you sit in to help with rolling out, and manipulating clay when necessary.

Course description: This class is meant to be a fun introduction to the world of clay! I will have the kids exploring multiple ways to create, and decorate works of clay art. I will give the kids several different projects to make, while encouraging them to adapt and create their own. Each child should be able to bring home several projects

Bio: I found a love for all things: dirt, mud, and clay at a very young age, and have enjoyed being dirty ever since! I went to The Maine College of Art for a short time focusing on ceramics. After that I apprenticed for Wiltjer Pottery in Maine. I have worked with clay off and on for over 15 yrs., holding small workshops for children at a small private school, and selling my own pottery. I love sharing my passion! Playing with clay seems to put a smile on everyone's face!
